Shi, Ming Hin

Skills

Computer and IT

- Familiarity with web development and machine learning.
- Programming languages: C#, Java, Python, JavaScript/TypeScript
- Web application frameworks: Vue
- Machine learning frameworks: PyTorch, Hugging Face transformers
- AI usage: Knows how to use AI agents (Hermes Agent, OpenCode) for self-studying, "vibe-coding", reading papers, and reviewing work.
- Misc: Git and GitHub, Linux

Language

For written and spoken language.

- Cantonese: Native
- English: Proficient
- Mandarin: Familiar

Others

- Research: Written several psychology papers for coursework, basic understanding of the research landscape (arXiv, ICLR).
- Statistics: Basic understanding of hypothesis testing (p-values, ANOVA) and modelling (Bayesian hierarchical modelling, Bradley-Terry).

Projects

OLMoE distillation: Source code, model checkpoints.

- Work in progress.
- Creating a dense version of a mixture-of-experts (MoE) model by copying expert weights, then distilling the MoE into the dense model.
- Uses Python, PyTorch, Hugging Face libraries (e.g., `transformers`, `peft`, `trl`).

Puzzpals: Website, source code.

- Final year project with two teammates.
- A collaborative multiplayer logic puzzle web application.
- I was mainly involved in prototyping and automated testing.
- Uses TypeScript and Vue.

Employment

Jun 2026–present: Part-time. Casual helper of MIND Lab at HKU.

- Read papers on neuroscience and help extract data for a meta-analysis.
- Write code for tasks used in studies.

Jun 2025–Aug 2025: XR + AI developer intern of VOTANIC.

- Implementation and optimization of a rendering algorithm in VR.

Education

- 2022-2026: BEng(CompSc), The University of Hong Kong.
- 2016-2022: Cheung Chuk Shan College.

HKDSE results

Subject	Grade
Chinese Language	3
English Language	5**
Mathematics (Compulsory)	5**
Mathematics (Extended, Module 1)	5**
Liberal Studies	4
Physics	5**
Chemistry	5
Information and Communication Technology	5*

Contact

Due to the high volume of scam calls, I do not answer calls from unknown contacts. Please use email, Signal, or WhatsApp, in this priority.
