Shi, Ming Hin

I am Ming Hin, a computer science graduate from HKU with skills in machine learning and web development. I am looking to collaborate full-time with people to research and develop safe AI systems.

Contact

- Phone: 97687172
- Email: u3606529@connect.hku.hk
- GitHub: https://github.com/minghinshi

Skills

- Use of AI agents: OpenCode, Hermes Agent
- Computing: C#, Java, Python, JavaScript and TypeScript, Vue, PyTorch, Hugging Face libraries (e.g., `transformers`), Git and GitHub, Linux
- Language: Cantonese (native), English, Mandarin

Education

2022–2026: BEng(CompSc), The University of Hong Kong.

- Jan 2025–May 2025: Exchange at the University of Edinburgh.
- Key courses: machine learning, deep learning, natural language processing.

Projects

Puzzpals: Website, source code.

- A website where you can solve logic puzzles with others in real time.
- Skills: Full-stack development (TypeScript, Vue, Node.js, Express).

Employment

Jun 2026–present: Part-time. Casual helper of MIND Lab at HKU.

- Compile data from papers for meta-analysis.
- Write code for tasks used in psychology experiments.
- Skills: Research, AI agent usage, academic work.

Jun 2025–Aug 2025: XR + AI developer intern of VOTANIC.

- Research and develop prototypes of AI technologies in VR.
- Feat: Increased frame rate of a renderer from 10 to 20 FPS.
- Skills: Research, GPU programming, software engineering practices.
